

WATER PURCHASE AGREEMENT BETWEEN NRG & W.C.I.D. 12 W/AMENDMENT TO GULF COAST WATER AUTHORITY CONTRACT

W.C.I.D. 12 is pleased to announce purchase of an increase in water supply from Gulf Coast Water Authority (GCWA) of 150,000 gallons per day of Reserved Capacity (108,500 gallons per day of Contract Quantity) from the acquisition of the Reserve and Contract Quantity released by NRG . This was part of NRG's contractual supply from GCWA and this is a WCID 12 assumption purchased from NRG.

The effective date is June 1, 2015 based on the signing date of May 1, 2015. Copies of these two contracts are included in the minutes of the May 2015 meeting minutes on this web site. The contracts are:

- The Assumption Agreement between NRG Texas Power LLC and Galveston County W.C.I.D. No. 12 &**
- Fourth Amendment to Mainland Water Project Customer Contract**

This addition is estimated to increase the number of "taps" available to W.C.I.D. by 200 based on the current governing agency regulations.

The water will be supplied in the existing 12 inch line connection at Highway 146 and Highway 517 . Please reference the web site press release in January, 2015 of the arrangement by GCWA to up-date the existing storage systems for all the customers and better utilize this existing 12 inch supply line.
